  (https://github.com/learn-co-curriculum/phase-1-constructor-functions-lab) **(https://github.com/learn-co-curriculum/phase-1-constructor-functions-lab/issues/new)**

Learning Goals

- Build constructor functions
- Build objects with properties from a constructor function

Intro

Scuber needs you to develop a fast way to create `Scooter` s, `Driver` s, and `PickupLocation` s as new business keeps rolling in.

Instructions

Create a constructor function for each of the following:

- Scooter with `year`, `color`, and `model` properties
- Driver with `name`, `age`, and `experience` properties
- PickupLocation with `address` and `city` properties

Make sure you run the tests to make sure your solutions work as expected.
