

# Phase 4 Code Challenge: Vendor Sweets

## Overview

This code challenge is a chance for you to show off how much you've learned specifically about; models, relationships, and validations, routes and REST, and response structure.

## Instructions

1. Refer to the [code challenge instructions \(https://moringa.instructure.com/courses/1054/pages/phase-4-code-challenge-instructions\)](https://moringa.instructure.com/courses/1054/pages/phase-4-code-challenge-instructions) for the process of starting and submitting this challenge.
2. Download the following file and unzip it to get started, [Phase-4-Code-Challenge-VendorSweets-062223.zip \(https://moringa.instructure.com/courses/1054/files/554163?wrap=1\)](https://moringa.instructure.com/courses/1054/files/554163?wrap=1)
3. [Use the \(https://moringa.instructure.com/courses/1054/files/554167?wrap=1\)](https://moringa.instructure.com/courses/1054/files/554167?wrap=1) [Assignment: Phase 4 Code Challenge \(https://moringa.instructure.com/courses/1054/assignments/74775\)](https://moringa.instructure.com/courses/1054/assignments/74775) assignment for specific grading requirements and submissions.
